

Dear Colleagues,

Our Occasional Teacher's Union has organized an exciting professional learning opportunity that has some spaces available.

York University has created a customized P/J Math Part 1 & Specialist AQ course for our occasional and long-term occasional teachers. This is an ideal time to take a Math AQ as the Ontario Teachers' Federation is providing a subsidy of up to \$450 to OTF or Affiliate Members who successfully complete additional qualifications in Mathematics. For more information about this subsidy click the following link: <https://www.otffeo.on.ca/en/learning/4594-2/>.

There is a limited amount of PD Funding available through our Upper Grand ETFO local as well. Please follow the normal procedures for PD Funding application. **Maximum number of spots available is 10 for this opportunity.**

The deadline to register is: Tuesday, March 27, 2018 at 4:00pm as the course begins April 3, 2018.

Please find the course details below:
